NOTICE REGARDING SUMMER VACATION AND HOLIDAY HOMEWORK

Dear Parents/Students,

Warm Greetings!

We take this opportunity to thank you for your continued support and cooperation extended to us.

We wish to inform you that the school will remain closed for Summer Vacation w.e.f. 18th May 2026

(Monday) to 21st June 2026 (Sunday) for Nursery to IX & XI & 18th May 2026 (Monday) to 14th June 2026

(Sunday) for X & XII. The summer vacation assignment is given to the students to maintain the continuity of studies and to engage the students effectively and constructively during the vacation time.

Students are informed to bring the solved assignment and submit to the respective subject teachers after

Summer Vacation. Parents are requested to ensure that their wards complete the Summer Vacation

Assignment during the vacation. However, in case of any doubt student can contact the subject teacher for the necessary guidance.

Summer Vacation: Classes Nur-IX & XI

- 18th May 2026 to 21st June 2026
- Classes (Physically) to resume from 22nd June 2026 (Monday)

Summer Vacation: Classes X & XII

- 18th May 2026 to 14th June 2026
- Classes (Physically) to resume from 15th June 2026 (Monday)

May this summer bring lots of happiness to your life!

Thanks & Regards,

Rajesh Kumar Mishra

Principal

JDS International School, Padrauna

HOLIDAY HOMEWORK (2026-27) CLASS XIITH (MATHS)

General Instructions:

- Bring holiday home work neatly written in your respective subject note books. You don't have to make new note book for holiday home work.
- We are not expecting a work of art completed by parents, just help your ward and encourage him/her to do the task themselves. The original work of the child shall be acknowledged.
- **You all have to submit your H.H.W. on 22nd June. No one will be given extra time to submit the same.**
- **Please note that MA I marks will be awarded based on the Holiday Homework submitted after vacation.**

INFORMATION TECHNOLOGY

1. Create a file describing the personality disorders of five people, including their names, the reasons for their personality disorders, their personality types, and how their behavior can be identified. Compile all this information into a file as your holiday homework.

PHYSICAL EDUCATION

1. Postural Deformities and Their Corrective Measures. Describe the following Postural deformities—including their causes and corrective measures—and provide an illustrated explanation.

a) Knock-Knees	b) Bow Leg	c) Flat Foot	
d) Round Shoulder	e) Kyphosis	f) Lordosis	g) Scoliosis
2. Following five **Yoga Asanas** postures:

a) Vajrasana	b) Halasana	c) Matasyasana	d) Mandukasana
e) Chakrasana			
3. Outline the procedure, list the benefits, and specify the circumstances under which they should not be performed (i.e. list the contraindications) with picture.

ENGLISH

Click & follow the given link for holiday homework.

Click on given Link : <https://www.pdfFiller.com/s/eVvF8fEw8>

PHYSICS

1. Learn: A) Intensity due to charge rod of infinite length
 B) Properties of charge
 C) All applications of gauss law
 D) Intensity due to dipole
 E) Potential due to dipole
 F) Properties of equipotential surfaces
 G) Properties of electric field lines
2. NUMERICALS
 A) 20 numerical on Coulomb's law
 B) 20 numericals on Gauss law
 C) 10 numerical on electric dipole
 D) 10 numericals on potential energy
 E) 10 numericals on electric potential
 F) Five numericals on torque acting on dipole

MATHEMATICS

1. Linear Programming:
 Introduction, related terminology such as constraints, objective function, optimization, graphical Method of solution for problems in two variables, feasible and infeasible regions (bounded or Unbounded), feasible and infeasible solutions, optimal feasible solutions (up to three non-trivial Constraints bounded)
2. Matrices:
 Concept, notation, order, equality, types of matrices, zero and identity matrix, transpose of a Matrix, symmetric and skew symmetric matrices. Operations on matrices: Addition and Multiplication and multiplication with a scalar. Simple properties of addition, multiplication and Scalar multiplication. Non-commutativity of multiplication of matrices and existence of non-Zero matrices whose product is the zero matrix (restrict to square matrices of order 2).
 Invertible matrices and proof of the uniqueness of inverse, if it exists; (Here all matrices will Have real entries).

3. Determinants: Determinant of a square matrix (up to 3 x 3 matrices), minors, co-factors and applications of Determinants in finding the area of a triangle. Ad joint and inverse of a square matrix. Consistency, inconsistency and number of solutions of system of linear equations by Examples, solving system of linear equations in two or three variables (having unique solution) Using inverse of a matrix.

CHEMISTRY

1. Create an A3-sized chart/map for all formula-based calculations, highlighting the Van't Hoff factor (i) application for dissociation and association.

2. Numerical: In-text Questions: All (especially 1.4, 1.6, 1.8). Exercise Questions: 1.2, 1.3, 1.6, 1.9, 1.11, 1.15, 1.18, 1.20, 1.25, 1.28, 1.31, 1.35.

3. Project Name:

A. Study of digestion of starch by salivary amylase and effect of pH and temperature on it.

B. Comparative study of the rate of fermentation of following materials: wheat flour, gram flour, potato juice, carrot juice, etc.

C. Study of common food adulterants in fat, oil, butter, sugar, turmeric power, chili powder and pepper.

D. Study of quantity of casein present in different samples of milk.
